SUMMARY

Enthusiastic Full Stack Web Developer with a strong grasp of Front-End and Back-End technologies. Excited to launch my career and collaborate on innovative web projects.

SKILLS

Front-End: JavaScript, React, Redux, ¡Query,Angular, HTML5, CSS3

Back-End: Ruby, Rails, MySQL, MongoDB, PostgreSQL, RestAPI, Node.JS, Express.JS

Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Postman

Professional: Remote Pair-Programming, Teamwork, Mentoring, Database Administration

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Remote

Full Stack Web Developer

Bookify — A simple book reservation app where users can add or remove their favorite book items from different categories, as well as an admin portal to manage the books and delete them within the web application.

Built with: Rails + React framework.

Melody Verse — Project includes features such as user signup with validation, JWT authentication, a paginated post list screen with infinite scroll, and responsive design using Tailwind CSS.

• Built with: Node.js, Express.js, React.js, and PostgreSQL as the database.

Recipes — Keeps track of all your recipes, ingredients, and inventory. It will allow you to save ingredients, keep track of what you have, create recipes, and generate a shopping list based on what you have and what you are missing from a recipe. Also, since sharing recipes is an important part of cooking the app should allow you to make them public so anyone can access them.

• Built with:Ruby On Rails

MICROVERSE Remote
Mentor (Volunteer) May, 2023 – present

• Mentored junior web developers, providing technical support through code reviews.

- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

Microverse Remote
Code Reviewer March, 2023 – Feb,2024

- Drove code quality through meticulous code reviews.
- Fostered collaboration among developers.
- Optimized code review processes for efficiency.

EDUCATION

MICROVERSE Jan, 2023 – present

Remote Full Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.

IGNOU

Bachelor in Computer Application

- Pursuing in-depth coursework in data structures, algorithms, and database management
- Developed a thesis project on WEB 3.0 with a focus on identify and mitigating vulnerabilities.
