KARAN JOSHI

FULL STACK WEB DEVELOPER

karan.joshi.dev@gmail.com | +91-9871998673 | GitHub | LinkedIn | Twitter | Portfolio

SUMMARY

Motivated **Software Engineer** eager to excel in software development roles, contributing expertise in Ruby on Rails, React, Node.js, and database management. Committed to addressing the unique needs of each opportunity and contributing effectively to innovative projects. Seeking full-time or part-time remote opportunities.

SKILLS

Front-End: JavaScript, JQuery, React, Redux, Angular, Next.js, HTML5, CSS3, Tailwind
Back-End: Ruby, Rails, MySQL, MongoDB, PostgreSQL, RestAPI, Node.JS, Express.JS, AWS, Firebase
Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Postman, Docker
Professional: Remote Pair-Programming, Teamwork, Mentoring, Database Administration

EDUCATION

IGNOU 2024 – Present
Bachelor in Computer Application
- Currently pursuing a bachelor's degree with a focus on database management systems and programming in Java.
- Developed a thesis project on WEB 3.0 with a focus on identifying and mitigating vulnerabilities.

MICROVERSE Sep 2023 – March 2024
Remote Full Stack Web Development Program, Full Time—[cert]
- Achievement: Obtained Full Stack Developer Certificate
- Experience: Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS Remote
Full Stack Web Developer May 2023 – Present

Auto-Docs - 🔗 **Live Link** | **Source Code**
Developed an open-source AI-powered documentation generator (GPT-4, Node.js, PostgreSQL) with multi-language support, a web demo, and a CLI tool.

Involex - 🔗 **Source Code**
Built an AI-powered Chrome extension (GPT-4, React, Node.js, PostgreSQL) that analyzes emails in real-time, estimates billable time, and auto-logs entries into legal practice management platforms (Clio, PracticePanther, MyCase).

OutLier AI Remote
AI Coding Expert (Freelance), February 2025 – Present
- Contribute expertise in software engineering to train generative AI models.
- Work with multiple programming languages, including Java, Python, JavaScript, and C++.

BLUETELECAST Remote
Full-stack Developer (Internship, Full time) - [Employ Cert] June 2024 – February 2025
- Contribute to building and enhancing Bluetelecast's digital presence. Managing both frontend and backend development to deliver a seamless user experience.
- Collaborate with cross-functional teams to deliver microservices to clients.

MICROVERSE Remote
Mentor (Volunteer, full-Time) May 2023 – May 2024
- Mentored 15 junior web developers, achieving a 30% increase in code quality and proposing improvements.
- Implemented code organization enhancements resulting in a 20% reduction in bugs and streamlining project timelines by 25%.

MICROVERSE Remote
Code Reviewer (Contract)—[Employ Cert] March 2023 – February 2024
- Conducted meticulous code reviews, addressing an average of 50 issues per week, leading to a 25% improvement in overall code quality and a 10% increase in code efficiency.
- Facilitated team collaboration through regular meetings and brainstorming sessions, increasing communication by 20% and improving project delivery timelines by 15%.
